Tallahassee, Florida 32399-0250

Subject: Discussion and Feedback Received on the Executed Section 106 Programmatic Agreement Regarding Florida's Assumption of a Section 404 Program

Dear Dr. Parsons:

The U.S. Environmental Protection Agency appreciates your engagement in the discussions about the Programmatic Agreement (PA) established under Section 106 of the National Historic Preservation Act (NHPA) and the regulations at 36 C.F.R. Part 800 regarding the State of Florida's assumption of a Clean Water Act Section 404 program. The PA was fully executed on December 16, 2020, by signature of the Florida State Historic Preservation Officer (SHPO), the Florida Department of Environmental Protection (FDEP), and the Advisory Council on Historic Preservation (ACHP).

The PA sets forth the roles and responsibilities of the parties of the PA, consistent with NHPA and the regulations at 36 C.F.R. Part 800. In addition, Section VIII.b. of the PA indicates that EPA will "engage in and complete further discussions with the Florida SHPO, FDEP, the ACHP, and the Consulting Tribes, to consider potential amendments to this PA regarding continuing tribal engagement and EPA oversight of the State's administration of its 404 program." Pursuant to this provision, EPA engaged the Choctaw Nation of Oklahoma, the Miccosukee Tribe of Indians of Florida, the Muscogee (Creek) Nation, the Poarch Band of Creek Indians, the Seminole Tribe of Florida, the Florida SHPO, FDEP, and the ACHP in discussions regarding the PA.

EPA hosted four meetings with the entities identified above, which were held on December 21, 2020, December 29, 2020, January 7, 2021, and January 14, 2021. EPA facilitated discussions, received feedback and provided information regarding the PA during these meetings. Based on these discussions, EPA has determined that an amendment to the PA is not needed. EPA has enclosed with this letter a summary of EPA's consideration of the feedback received during the meetings, and in certain instances, references to materials that provide more information on the issues raised.

If you have any questions regarding this matter, please contact me at (404) 562-9345, or have a member of your staff contact Mr. Kelly Laycock at (404) 562-9132 or laycock.kelly@epa.gov.

Sincerely,

JEANEANNE GETTLE
